Since the outbreak of the pandemic, parts of the world have been confused - but the effects are not the same for everyone. During the roundtable discussion with participants from South Africa, India, Morocco and Germany, we want to ask about the transnational differences and similarities, about social upgrading and hierarchical consolidation, about the escalation of new and old conflicts. Join our discussion!

For registration please write a short Email with your name, city and University status to pia.schlechter1@uol.de. You will get a link for the virtual videoconference room. The Roundtable will be in English.
